FACTSHEET ON CAPACITIES IN AGRICULTURAL HIGHER EDUCATION

Lupane State University, Zimbabwe
Faculty of Agricultural Sciences

Anish Tailor, Percy Chipunza, and Nienke Beintema
October 2018

The university was established in 2005. Note: Data for 2005–2007 and 2009–2011 were not available.

Share of teaching staff by gender, 2016

- 83% MALE
- 17% FEMALE

Share of female teaching staff in each qualification level
- BSc 100%
- MSc 11%
- PhD 33%

Share of female teaching staff by age bracket
- <41 years 38%
- 41–50 years 8%
- >50 years 0%

Share of female teaching staff by position
- Deans/professors na
- Associate professors na
- Other na

Note: “Other” includes senior lecturers, lecturers, and assistant lecturers. Data on the share of teaching staff by position were not available.

Share of teaching staff by position, 2016

- NO DATA

Note: Data on the share of teaching staff by position were not available.

MSc- and PhD-qualified teaching staff by discipline, 2016

- NO DATA

Note: Data on MSc- and PhD-qualified teaching staff by discipline were not available.

Total number of peer-reviewed publications by type, 2015/2016

- NO DATA

Note: Data on peer-reviewed publications were not available.
Total number of enrolled and graduated students by degree, 2016

BACKGROUND

Credible quantitative and qualitative information on existing capacities in agricultural higher education agencies in Africa are crucial for strategic planning, policy formulation, setting priorities and benchmarks, measuring progress toward benchmarks, and identifying capacity gaps. Decisionmakers require a solid understanding of existing staffing and student capacities in the higher education sector, as well as in the wider agricultural innovation systems in Africa south of the Sahara. Access to such information supports effective policymaking to address capacity issues in higher education, agricultural research, extension, and other areas. Such information remains extremely limited, however.

To fill this need, the International Food Policy Research Institute’s Agricultural Science and Technology Indicators (ASTI/IFPRI) and the Regional Universities Forum for Capacity Building in Agriculture (RUFORUM) initiated a partnership to pilot the collection of this type of data for RUFORUM’s member universities. This factsheet presents the available data results Lupane State University, Faculty of Agricultural Sciences. An online version of the data is available via the Portal on Agricultural Capacity in RUFORUM Universities: www.asti.cgiar.org/RUFORUM.

ABOUT RUFORUM, ASTI, AND IFPRI

The Regional Universities Forum for Capacity Building in Agriculture (RUFORUM) is a network of 85 universities in 36 African countries whose mandate is to strengthen the quality and relevance of postgraduate training and research in African universities—especially in agriculture, science, technology, and innovation—through activities designed to improve the capacity of African universities and research centers to generate knowledge relevant to Africa’s development challenges. Agricultural Science and Technology Indicators (ASTI) is a comprehensive and trusted source of information on agricultural R&D systems across the developing world. ASTI works through collaborative alliances with numerous national and regional R&D agencies and international institutions, and is led by the International Food Policy Research Institute (IFPRI), which—as a CGIAR member—provides evidence-based policy solutions to sustainably end hunger.

RUFORUM and ASTI/IPRI gratefully acknowledge participating RUFORUM member universities for their contributions to the data collection and preparation of this factsheet series. ASTI also acknowledges the Mastercard Foundation for its financial support of the development of the series. This factsheet has been prepared as an ASTI–RUFORUM output and has not been peer reviewed.
