

FACTSHEET ON CAPACITIES IN AGRICULTURAL HIGHER EDUCATION

Université Nationale d'Agriculture, Porto-Novo, Benin

Anish Tailor, Emile Hougbo, Léa Vicky Magne Domgho, and Nienke Beintema

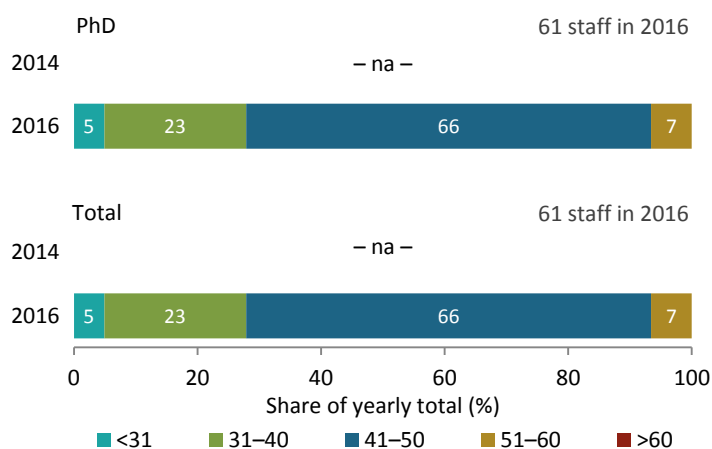

October 2018

Total number of teaching staff by degree, 2013–2016

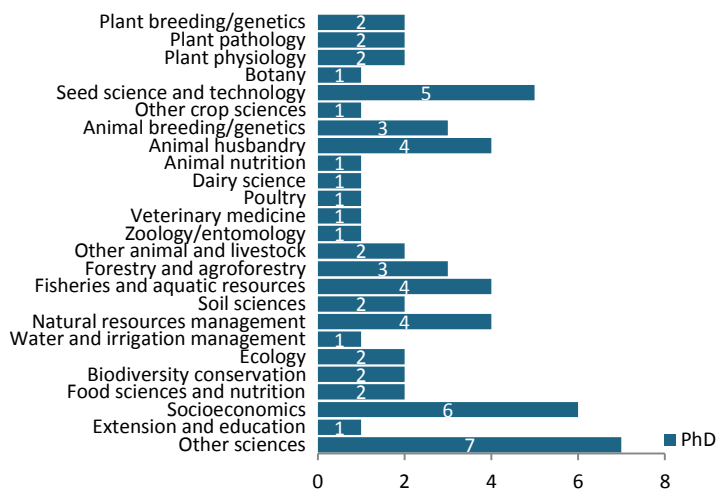

Note: The university was established in 2013. Data for 2015–2015 were not available.

Share of teaching staff by age bracket, 2016

Note: Comparative data for 2014 were not available.

MSc- and PhD-qualified teaching staff by discipline, 2016

Note: The college employed no MSc-qualified teaching staff in 2016.

Share of teaching staff by gender, 2016

Share of female teaching staff in each qualification level

BSc Not applicable MSc Not applicable PhD 15%

Share of female teaching staff by age bracket

<41 years 47% 41–50 years 3% >50 years 0%

Share of female teaching staff by position

Deans/professors na Associate professors na Other na

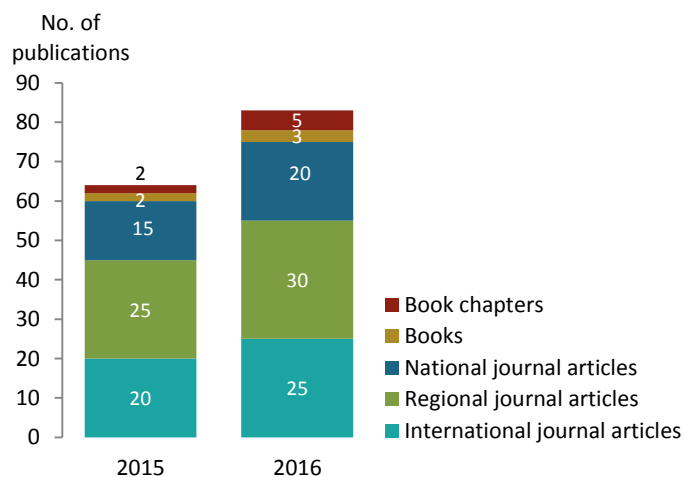

Note: "Other" includes senior lecturers, lecturers, and assistant lecturers. Data on female teaching staff by position were not available.

Share of teaching staff by position, 2016

NO DATA

Note: Given classification differences, data on teaching staff by position were not collected for the Francophone universities.

Total number of peer-reviewed publications by type, 2015/2016

Total number of enrolled and graduated students by degree, 2016

Note: Data on enrolled students are for all class levels in 2016; data on graduating students are for 2015/16. No MSc- or PhD-level students graduated in 2016.

Ratio of graduated to enrolled students by degree, 2016

Note: Data indicate the ratio of graduated to enrolled students at each degree level. No MSc- or PhD-level students graduated in 2016.

Share of enrolled and graduated students by gender, 2016

Enrolled students

Share of female students enrolled within each degree level

Graduated students

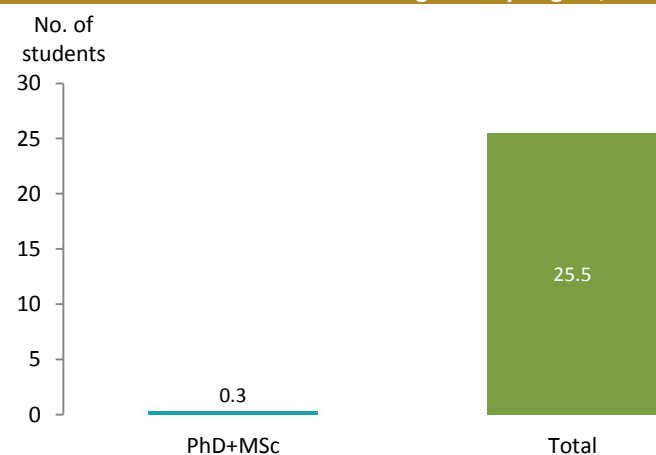

Share of female students graduated within each degree level

Note: No MSc- or PhD-level students graduated in 2016.

Ratio of enrolled students to teaching staff by degree, 2016

Note: Data indicate the ratio of total students to total teaching staff. The university only employed PhD-qualified teaching staff in 2016.

BACKGROUND

Credible quantitative and qualitative information on existing capacities in agricultural higher education agencies in Africa are crucial for strategic planning, policy formulation, setting priorities and benchmarks, measuring progress toward benchmarks, and identifying capacity gaps. Decisionmakers require a solid understanding of existing staffing and student capacities in the higher education sector, as well as in the wider agricultural innovation systems in Africa south of the Sahara. Access to such information supports effective policymaking to address capacity issues in higher education, agricultural research, extension, and other areas. Such information remains extremely limited, however.

To fill this need, the International Food Policy Research Institute's Agricultural Science and Technology Indicators (ASTI/IFPRI) and the Regional Universities Forum for Capacity Building in Agriculture (RUFORUM) initiated a partnership to pilot the collection of this type of data for RUFORUM's member universities. This factsheet presents the available data results for Université Nationale d'Agriculture, Porto-Novo. An online version of the data is available via the Portal on Agricultural Capacity in RUFORUM Universities: www.asti.cgiar.org/RUFORUM.

ABOUT RUFORUM, ASTI, AND IFPRI

The **Regional Universities Forum for Capacity Building in Agriculture (RUFORUM)** is a network of 85 universities in 36 African countries whose mandate is to strengthen the quality and relevance of postgraduate training and research in African universities—especially in agriculture, science, technology, and innovation—through activities designed to improve the capacity of African universities and research centers to generate knowledge relevant to Africa's development challenges. **Agricultural Science and Technology Indicators (ASTI)** is a comprehensive and trusted source of information on agricultural R&D systems across the developing world. ASTI works through collaborative alliances with numerous national and regional R&D agencies and international institutions, and is led by the **International Food Policy Research Institute (IFPRI)**, which—as a CGIAR member—provides evidence-based policy solutions to sustainably end hunger.

RUFORUM and ASTI/IFPRI gratefully acknowledge participating RUFORUM member universities for their contributions to the data collection and preparation of this factsheet series. ASTI also acknowledges the Mastercard Foundation for its financial support of the development of the series. This factsheet has been prepared as an ASTI–RUFORUM output and has not been peer reviewed.
